## Projects

**Online Code Editor** | Newton School ([link](#))

November 2022 - December 2022

### Features:

- Toggleable Fullscreen mode.
- Auto render code(within 250ms).
- Auto close tags for HTML.
- Highlight unclosed brackets .
- Expand collapse code editors.

**Technologies Used:** React, Codemirror.

**Description:** A codepen clone,built with React and CodeMirror supports screen size of generic tablet. Below that, the text would become illegible, So, an error message will be displayed for screens 400px and below.

**Portfolio page** | Newton School ([link](#))

October 2022 - November 2022

### Features:

- Home
- About me
- Education
- Portfolio
- Contact

**Technologies Used:** HTML, CSS, JavaScript

**Description:** A Static web page to maintain the data of my Educational background, Skills, Projects., the page is fully responsive and it has the functionality to scroll smoothly.

**Tic Tac Toe Game** | Newton School ([link](#))

September 2022 - September 2022

**Features:** HTML, CSS, JavaScript.

- Nine Customised boxes
- Restart Button
- Winner pop up

**Technologies Used:** HTML, CSS, JavaScript

**Description:** The game is to be played between two people, One of the player chooses 'O' and the other 'X' to mark their respective cells. The game starts with one of the players and the game ends when one of the players has one whole row/ column/ diagonal filled with his/her respective character ('O' or 'X').

**Wordle** | Newton School ([link](#))

August 2022 - August 2022

### Features:

- Game Rules
- Static single page game

**Technologies Used:** HTML, CSS, JavaScript

**Description:** Wordle gives players six chances to guess a randomly selected five-letter word. As shown in the page, if you have the right letter in the right spot, it shows up green. A correct letter in the wrong spot shows up yellow. A letter that isn't in the word in any spot shows up gray
